

ICONIC AWARDS 2024: Innovative Architecture

1. FOUNDATIONS

The ICONIC AWARDS: Innovative Architecture are presented annually by the German Design Council. The award is organised by the Rat für Formgebung Service GmbH (German Design Council).

The following General Terms and Conditions form the exclusive contractual basis for participation in the ICONIC AWARDS 2024: Innovative Architecture (award) between the German Design Council and the award registrant. The registrant's Terms and Conditions are not recognised, even if the German Design Council does not expressly object to them in individual cases.

2. PREREQUISITES FOR PARTICIPATION

Award entries (projects) which have been recommended for the award by the foundation members of the German Design Council or the German Design Council, as well as non-recommended projects which can be assigned to at least one of the following categories, may participate in the award:

Architecture • Interior • Product • Communication • Concept • Innovative Material

Only projects that were launched on the market or made public no more than five years ago are permitted. The registrant must provide suitable proof of this at the German Design Council's request.

The number of registrations is not limited. It is possible to submit one project in different categories at the same time. A project can be awarded in several categories and/or several additional categories.

3. REGISTRATION, SUBMISSION AND INSURANCE OF PROJECTS

3.1 The German Design Council will send registrants a written invitation to take part in the award. The letter contains a personal username (e-mail address) for each registrant and, in the case of a recommendation, a project ID for each recommended project. All projects can be registered to the award in the personal login area at mydesigncouncil.gdc.de (MDC). Projects can be registered online following approval of the project details and after reading and confirming the General Terms and Conditions for the award.

Registration is binding and commits the registrant to complete payment of the relevant fees and costs. The German Design Council grants free cancellation of the registration if addressed in written form to iconicawards@gdc.de within 14 days of the date of registration (the non-delivery of material for the project evaluation by the jury will not be considered a cancellation). After the expiry of the 14-day period, the fees/costs at registration specified in section 6 are no longer refundable and the registrant's right to withdraw expires.

The registrant is authorised to carry out the registration process. The contract is concluded exclusively in digital form and is not exchanged in paper form.

In general, the German Design Council reserves the right, after internal examination, not to allow projects to participate in the award. The registrant of a project will receive a written notification of the outcome of the examination. In the event of a negative notification, the legal contract between the registrant and the German Design Council will be cancelled. In this case, the registrant will not be charged any costs and fees for the registration, or if already been paid, the transaction will be reversed.

In the event of an award, the registrant's details and those of the registered projects will be used for publications, for the ICONIC Catalogue, for the online Showroom ICONIC Directory, and for the production of the documents as well as other advertising material and will be processed in accordance with the legislator's privacy regulations. The German Design Council assumes no liability for incorrect or erroneous information.

3.2 For the jury session, the registrant may submit digital presentations of the pro-

jects for the award. The data can be uploaded via the link provided in the registration confirmation, or, with prior agreement, sent by e-mail to iconicawards@gdc.de.

All projects must be marked with the provided project ID and this must be clearly visible on delivery. Loss and/or non-consideration of unmarked projects are at the registrant's own expense. The burden of proof for proper labelling lies with the registrant.

3.3 The costs and all risks of transport for the delivery and removal of the registered projects shall be borne exclusively by the registrant. The German Design Council undertakes to inform the registrant immediately of any visible transport damage upon receipt of the projects. For projects delivered from abroad, the registrant must clear all necessary customs procedures at their own expense. The German Design Council accepts no liability for destruction, theft and/or damage for the duration of the projects' submission period. All necessary insurance should be taken out before registering.

3.4 Projects must be delivered in packaging that can be reused for return shipment and is safe for transport. If this is not the case, the German Design Council accepts no liability for any damage caused during return transport.

3.5 The registrant must collect the project by the specified deadline. Whoever comes to collect the project must be able to identify themselves and specify the project ID for the project they wish to collect. Freight forwarders or courier services must present an order from the registrant with the project ID of the project to be collected. If this is not the case, the German Design Council reserves the right not to hand over the project. Projects that have not been collected by the registrant by the deadline specified in the registration documents will subsequently be stored for ten working days subject to a fee (40.00 EUR/orject/day, plus any special costs for transport) and then disposed of at the registrant's expense (40.00 EUR/project plus any extra cost for disposal).

3.6 If the German Design Council is commissioned to assemble projects supplied in a disassembled state, the German Design Council assumes liability in accordance with the following regulation. The registrant undertakes to provide appropriate installation instructions in German or English. The same applies to the disassembly of the project for return transport. Liability for loss of or damage to the projects is excluded, unless the German Design Council, its legal representatives or vicarious agents are charged with intent or gross negligence; the German Design Council's liability for negligent conduct is limited to a maximum value of 1,500.00 EUR, irrespective of the number of projects submitted by the same registrant.

The German Design Council shall not be liable for any damage arising during assembly and/or dismantling, unless an order has been placed. If a project is delivered disassembled and there is no order for assembly by the German Design Council, the German Design Council is entitled to assemble the project, but assumes no liability for damage incurred during assembly or disassembly.

3.7 The German Design Council recommends that the registrant takes out all necessary insurance.

3.8 If the registrant has chosen to provide presentation charts via digital data preparation during the online registration for the award, the data (PDF) must be uploaded by the specified deadline after successful online approval. Data submitted after the deadline will not be considered. For the evaluation, data is then taken from the MDC (to be seen under section 3.1).

3.9 For registrants who have their registered office in People's Republic of China, Taiwan, Macao SAR or Hong Kong SAR the operative implementation (control of the registration, handling of the projects, invoicing and receipt of payment for the German Design Council) will be taken over by their subsidiary, German Design Council (Shanghai) Co. Ltd, Shanghai, China (details under following section 12).

4. PREVENTION OF ACCIDENTS

If projects are usable or are exhibited or demonstrated in an operative state, they must comply with the statutory and trade association regulations in

The registrant must also indemnify the German Design Council without limitation against any claims for damages by third parties.

Any damage that occurs during the jury session must be reported immediately within one week to the German Design Council. A description of the damage, along with pictorial documentation of the damage, must be included.

5. JUDGING

An independent expert jury will select the award winners. The jury is comprised of representatives from architecture, interior design, design and brand communication. Projects should stand out with regard to the following aspects:

Overall concept • Design quality, aesthetics • Context quality, social balance • Choice of material and details • manufacturing technology and quality • Ergonomics, functionality and user friendliness • safety and barrier freedom • Sustainability, durability, circularity • Energy efficiency, ecological balance •

The preceding list does not represent a ranking of the criteria and assessments for the jury. The jury's decision will be confirmed in writing. Any legal recourse is excluded.

If a released project has not been delivered to the jury session within the specified period, the jury reserves the right to use the project for evaluation on the basis of the released data from the registration at MDC (see 3.1). A decision of the jury based on this information is also valid.

Within the jury session, the jury is entitled to change the category of the project in which an award is given.
